LATEST NEWS.

PRESS TELEGRAMS
The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—
Montevideo 16th.
The papers attack Vidal's message bitterly and say it is full of false statements.
Rumour that Cuestas, Finance Minister, will resign.
Exhibition Committee here threaten to throw the whole thing up and resign if the Government does not give them some money to go on with. The delegates in your city are egually hard up.
It is expected the Government will give the necessary funds.
Santos's friends are subscribing, to buy him a horse worth 2000 National dollars.
Heat still great—29 Centigrade.
Awful affair last night 17th in the exchange shop of Platero Bros. in Plaza Independencia. Their clerk, a man named Belancourt was found in the shop this morning, murdered, with a stiletto wound in the neck, his skull fractured, and signs of strangulation. Five thousand patacons were stolen. The victim was only 19 years of age, and was found dead near the iron safe, everything about showing that he fought hard to save the property in his charge. The murderers got in on him as he was closing the shop.

ANOTHER LAND AUCTION

As will appear by notice in another column, the Provincial Government has ordered another auction of its public lands in the South, and, as a matter of course, they say that the lands now to be sold are better than those disposed of at the last auction, and for which such unheard-of prices were paid.
It is very remarkable the little relation there is between the price of land in the open market and the prices paid at these Government auctions. We saw last week Government land fetch 250,000$ m|c. per league; whilst better land, and by no means so far out, cannot be sold in the market at 150,000$ m|c per league, and although we are firm believers in new camps, new estancias, and new starts for young fellows who have life, cows, camp and sheep before them, still we should have been just as well pleased had the Government waited for at least another six months before offering any more land in the market. It may be, and we believe it is so, that many of the bidders and buyers at the recent Government land auction bought on speculation and to sell again. These buyers will necessarily be obliged to pay the fine and throw up the lands, since it is not probable they will be able to sell even their 'boletos' for the price they cost them, in the advent of a still larger Government auction in May.
There is at present a great pressure of land on this market and we attribute this to the wrong sorts of people having got hold of the right lands. We lay it down as a fixed rule that, whilst every sheepfarmer in the country may go head and ears into debt to buy land for his flocks, and in the long run will come out right and the owner of a fine property, no man living in town should buy even the very best estancia land on credit. Land in the hands of a struggling farmer can pay 12 to 15 p. cent interest, and even 20 p. cent, but land in the hands of people here in town cannot pay even 6 p. cent interest, and all who buy land and borrow money to pay for it put their hand in a fire, sure to be burnt.
It is probable that during this year the Nat. Government will sell some very large tracts of land to the south of the Rio Negro and in the Misiones, lands the finest, best, and most fertile in the country; but we have not the capital in this country to buy these lands, no matter how cheap, and so let them lie idle, and this is what is happening with much of the land bought last year on speculation.
The Pincen land, put up the other day and offered for a mere song, could not be sold. Yet if the owner put Don Jose with his wife and children on that land, give them a decent start, say 100 cows and 1000 sheep, that land will yield a hundred fold to the present owner who has tried the auction room and failed.
Minister Uriburu, who so thoroughly knows this market, must be aware of the pressure of land on the market. There is land offering in every quarter of the Plate. We heard of a sale of 200 sq. leagues the other day in the provinces, price paid less than 200 pats per league. There is another lot of 300 sq. leagues offering by an English house in this market, and they hope to get 300 pats. A Manchester house, we hear, has another splendid tract for sale, and at a very low figure, whilst a well-known land broker is now arranging the papers for a lot of prime Provincial land area; over 1000 sq. leagues, the question is will it sell?
Governor Rocha we think, would consult the interests of his Government, and the interests of a very wide land public, by postponing his land auction, say for 6 months, when new buyers and new capital will be in the market.

THE MINING INTERESTS OF THE NATION.

There can be no doubt that besides being a great pastoral and agricultural region, the Argentine Republic is destined to become notable for its mineral wealth. As yet we possess a very limited knowledge of the real extent of this wealth, for, strange to say, considering the topography and geological formation of the country, the Argentines are neither sailors nor miners, while Chile is, and always has been, essentially both. That the western slopes of the Andes are richer in minerals than the Eastern is merely an hypothesis, founded on the fact that the Chilians and Peruvians sought for, discovered, and worked their mines, while we have allowed our mineral wealth to remain in the bowels of the earth. The mines in Mendoza, San Juan and Rioja were discovered and worked by Chilians.
It was only a few years ago that an article on the subject would not be read by any one in the Litoral, and even now few people in Buenos Aires understand or appreciate the fact that the Republic possesses a huge future capital amongst the rocks and boulders of her mountainous regions. For many years past Chilian citizens have carried away across the Andes very considerable fortunes made in Argentine mines. As the proceeds of these mines were transported to Chile, and shipped in Valparaiso or Coquimbo for Europe, we in the Litoral remained in ignorance of the value of our minerals, and quite indifferent to the subject, and to the fact that many thousands of Chilenos were working the mines of San Juan and Mendoza. This in itself was not by any means to be deplored. Let them come by hundreds of thousands, by all means. The prosperity of those two provinces is mainly due to their superior intelligence and above all, their habits of industry. But it is curious to speculate on the results of the mines being worked by Chilian capital and Chilian hands. The copper and silver and very ores were shipped to Valparaiso, the return freight being dry goods and iron ware and drugs.
In this way Chile monopolized the markets of the Andine provinces completely. The latter bought little or nothing from Argentine markets, and only sent us their surplus flour and dried fruit that were unsaleable on the other side of the Andes. Mendoza was called a suburb of Chile; and we can readily believe that had the Chilian language been Guarani instead of Spanish, the Cuyanos would have forgotten their mother tongue, so limited was their intercourse with the rest of the Argentine Republic. Will the railway divert them and their commerce to the Parana? This is an important and interesting question. The silver bars, on account of their great value, will, we believe, still travel across the Cordilleras; but other minerals such as copper and lead must find their way to the shipping port of Rosario.
If there be no doubt of the mineral wealth of Mendoza and San Juan there can be still less as to that of Rioja. The mountain of Famatina is a mass of mineral ores, more or less valuable. Its copper is so rich in gold, that the precious metal extracted in England pays the transportation of the copper from the mines to Europe. Its argentiferous galenas are exceedingly rich in silver; richer in fact than in any other part of the world. Here again the Chilian is the principal miner, and most of the silver extracted went to Chile, creating, as in Mendoza and San Juan a return traffic in merchandise. The railway we believe, has already modified this bad state of affairs for us. We see that a bar of Famatina silver worth ten thousand dollars will be on view at the Exposition. The gold mines of San Luis have for many years been worked, always giving small but steady returns. The gold has invariably, up to the last few years, been sold in Chile.
We have already given some details of the progress of mining in Cordoba in describing the English establishments of the 'Rara Fortuna' and 'Santa Barbara.' We shall have more to say on the subject when our information shall be more complete. Mining industry must soon come to the fore in this country. There are eight provinces out of the fourteen rich in minerals.

LONDON LETTER.

(From our Own Correspondent)

FINANCIAL.
January 18th, 1882.
The state of the Paris Bourse continues to affect all the European markets, not from the partial panics which have hitherto been easily checked, but from the fear that as bankers' facilities have been withdrawn, a flood of securities may yet be thrown on the market at the next liquidation. The wholesome warnings published some days ago in the *Times*, under the signature of 'Observateur Français,' and of which I sent you a translation, have had a beneficial effect in limiting credits, but the financial world is evidently puzzled to discover why it is that the position in France is not worse than it is in view of the late inflation of prices. One reason I believe to be in the fact that in France the distribution of wealth is more equable than in other countries, and that the classeo of Fenchmen who have lately been speculators, and as individuals in a relatively small scale, would in other countries have neither the means nor the facilities from bankers and brokers to enter into gambling speculations. The consequence is that in France a host of small people disappear pecuniarily without alarming the Bourse, whilst in England, under certain existing conditions, the failure of one house, like Ovrend and Gurney, would cause a panic.
Fortunately at the present moment thase conditions do not exist and have not existed for some time in this country. We have only had to quietly watch that pivot on which all commercial enterprises revolve—the London money market. The steady withdrawals of gold from the Bank of England for Italy, Portugal, Egypt and South America, and the scanty replenishment from the usual sources of supply have, it must be confessed, been productive

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION.

of anxiety. It is obvious that had the harvest in America been more abundant, the impression on the Bank reserves would have been most alarming. As it has happened, the payments due to the United States have been limited in extent. Yet during the closing weeks of 1881 greater stringency could hardly have prevailed consistently with a general healthfulness of tone. As for speculators, as much as 10 and 15 per cent. were charged for continuance of certain securities at the last Stock Exchange settlement. The new year has, however, opened with comparative ease, although it seems evident that there will be no return to the low rates prevalent at this season in 1881. To-day four per cent. is the rate for first-class discounts. We may fairly expect to see that figure maintained for some time to come, unless the state of affairs in France should grow more serious. Foreign and Colonial Securities and Home Railway Stocks are high, but by no, means inflated in value. In fact nothing good or fairly secure is long allowed to remain cheap, but readily finds its level amongst keen-sighted investors. The Argentine 1871 Loan is about 5 per cent. higher than it was this time last year. Chilian Stocks are 10 per cent. higher and Brazilian 3 per cent.

In the *Times'* city article some correspondence has appeared in regard to the 9 per Cent. Argentine Treasury Notes. A correspondent who signs 'A. B.' has pointed out in answer to a letter written a week ago and signed 'Bondholder,' that it is an error to suppose that these notes are redeemable at par. He quotes the text of the law of October 19th, 1876, authorising the issue of £1,000,000, bearing 9 per cent. interest, with an annual sinking fund of 200,000 fts. that 'the service of the debt will be provided for quarterly and the amortisation made by tender.'.

That may be, but without overdoing the subject, or taking a merely Stock-Exchange view of the question, I may be permitted to remind your Minister of Finance of the general impression caused by his recent scheme as far as the Treasury Bonds are concerned. It is doubtful whether this market will be absolutely free to receive any new proposals from your quarter till all doubts as to the fate of these Treasury Bonds are set at rest. Your Government made a mistake in issuing a 9 per Cent. Loan, therefore they must not be angry if the bonds have risen to a premium beyond their own ideas of amortization. I would be impolitic to try and remedy their own errors by being unjust to the investor.

The Chairman of the Buenos Aires Great Southern Railway has returned home, and his mission has been most successful. The arrangement made is considered to be alike beneficial to the Argentine nation and the Railway Company. The opinion of investors on the subject is pretty well reflected in the fact that Great Southern shares have risen five per cent. within the last fortnight.

The Paris correspondent of the *Times* of this morning says—'I think it may now safely be said a Commercial Treaty will be signed.' The negotiations are at present conducted not by the Commissioners 'ad hoc' of either Government, but by Lord Lyons and the French Minister of Foreign Affairs. In other words, in face of the Egyptian question and the general aspect of political affairs in Europe, the mere selfishness of merchants and manufacturers is to be set aside in favour of diplomatic considerations.

The London and Westminster Bank has declared a dividend of 9 per cent. for the half-year, leaving a rest or surplus fund of £1,073,454.

The National Bank declares a dividend at the rate of 11 per cent. per annum, leaving a rest of £206,045.

The National Discount Company declares a dividend of 12 per cent. per annum. The chairman, congratulating the meeting on the result, all things considered, explained that banking and discount business differed, as the former had large amounts of deposits without payment of interest, while a large amount of their business depended on loans to customers, where the rate varied according to the rise or fall of the bank rate: but in the case of discount companies the rate was fixed upon all bills taken for the period pending the maturity of those bills, and therefore a rise in the value of money was generally in favour of the bank, while a fall was in favor of the discount houses. The amount of these bills was gradually increasing. Last half-year they were within £300,000 of the most inflated time of 1872. In 1872-73-74 they discounted between forty-six and forty-eight millions; in 1875 the amount fell to 40 millions; in 1876 to 33 millions. In 1878 they rose to 36 millions. In 1879-80 to 44 millions; and last year the amounts discounted amounted to nearly 50 millions. The chairmaa announced that notwithstanding the sum of discounts they had not made a single bad debt, and they had been able to make the same gratifying statement for 13 successive years.

The Royal Mail Company held a special meeting to-day to apply for a new charter. It happened sometimes that their ships were lying idle at Southampton and other companies applied for the use of them on hire. The solicitor of the company informed the Directors that by the present charter they had no powers to hire their ships to any one but the Government.

THE CAMPS.

(An answer to Mrs or Miss Patience.)

Your letter is written in such a sensible style that I must take you for a lady:—

You will not 'condemn your children to stock and work these lands so far from civilization, and to live a life of hardship and misery'? Well Mrs or Miss P., if everybody would think like you, the fine country which stretches between New York and San Francisco would never have become populated by civilized people.

As you are a lady, it is pardonable that you are unaware of the fact, that our sheep industry 30 years ago, when Rosas' reign ended, was in an embryo still, and that it does not require '25 to 40 years before the pasto becomes mestiza,' but that 5 to 10 years are sufficient for good camps like Curumalan, the high ones of Tres Arroyos, Lincoln, etc, etc.

The statistical figures of exports from this port are as follows:—

Season	Bales
1852-53	20,514
1862-63	80,780
1872-73	194,594
1880-81 including bales stock, about	15,000 220,000

You will observe that during the period, when camps had not become scarce as yet, the increase of wool was much larger, and it only became smaller by overstocking, for want of camp; in fact during 1864-1868 it amounted to 15-20 per cent every year.

As regards buying camp, the same thing has happened to you as it does to all old spinsters, for whom no wooer is good enough and who commence to grumble, when they see that it is too late.

Your polite fury against the dentists can only be explained by one of them having betrayed to somebody that you have got a false set of teeth: I cannot find any other explanation of the matter, since you state yourself that it was not your money they invested in camps, but their own savings.

Have you any objection to a dentist buying lottery tickets, or Nat. Bank shares? Don't you think camp is a better investment?

Ask those estancieros whose land is worth 3½ millions per league, whether they paid more than 200,000 m/c 25 years ago.

Only an old woman can write such things as: 'if the camp becomes bad, there will be no help: a new epidemic takes in charge to reestablish the equilibrium, as it happened in former years.' When our exports show, that in 28 years the production of wool has increased 1100 p. cent.

Do you know that the lambing during the last season amounts to 25 o/o after deducting the losses, and in consequence more room is required for the flocks?

This season will make good for three bad ones, but, had the camps been so overstocked as before we had the new ones, there would be much less increase.

I hope that there are not many old ladies in the country who close their eyes to the brilliant future it has, on account of those large territories being liberated from the Indians, and since the state of the interior and exterior politics will stimulate immigration to a great extent.

Kissing your feet, I am respectfully,

G. S.

EDITOR'S TABLE

The Royal Mail steamer Minho will sail on Monday afternoon. Packet Edition to morrow morning.

We were delighted to recognise on an envelope we received yesterday the well known and ever-welcome 'fist' of our talented 'German Subscriber' with whom we had so many friendly falls last year while the premium on gold was falling like Cardinal Wolsey. We had an idea that the discussion about 'Camps' would fetch him from his lair. We regret to see that his convictions have forced him to take sides against our fair corresponpent. 'Patiente', who, we may inform him, is not old, but young, and decidedly good-looking into the bargain. We fear, however, she will never consent to marry a German, should the letter in another column catch her bright blue eye.

Some interesting news from the far South will be found in our Supplemental sheet.

Our Argentine colleagues, some of them at least, attach greater importance to the resolution of the House of Representives in Washington than the resident Britishers and North Americans do. As well as we remember, this is not the first time that the Representatives have expressed similar opinions on the same and other subjects, but nothing particular came of it.

The report of Mr. Francis Segui, engineer of the Exhibition Committee, has created a general conviction that it will be impossible to inaugurate the Show on March 1st., unless a long, strong and all-together pull be made by everbody concerned. The builders will have all their work completed by the date named, but the exhibitors are so slow in their movements that another postponement is inevitable. The literary men are working so hard that their prose and poetry for the 'Certamen' is already half finished, and the 'Esgrima' men's souls are also in arms and ready for the fray. If the exhibitors do not stir themselves, there will be nothing but Poetry to open the Exhibition with on the 1st prox.

A London correspondent writes:—"I hear that a gigantic hotel, on the American plan, is to be erected forthwith on the Thames Embankment. All the attaches, waiters, chambermaids, etc., are to be Americans, and one of the Lelands is to manage the concern. If properly conducted, and none know the business better than the Lelands, it should be a success, for the Langham is as sorry a parody on an American hotel as the Criterion bar is on an American saloon."

At Paso de los Libres the river police have at last pounced on one of the numerous smuggling craft that ply their trade about there. The captured vessel was under Oriental colours.

There was a sensation in port the other night when a Capitania boat crept about under cover of the darkness and fined half the vessels at anchor a round 20 pats each, for not showing lights, as bound to do by the port regulations.

A Chascomus policeman, while in a state of unsurpassed intoxication, hanged himself some nights since to a tree 'by that lake whose gloomy shore' etc. The unfortunate fellow first took a bath in the lake, to cool himself, and then flew to ills he knew not of.

The *Prensa* reports the arrest of a Calle Florida 'flaneur' for 'doing' a shopkeeper (probably his tailor) out of $40,000 m/c. When arrested he was getting through the cash at lightning speed, in some preciously bad company.

The War Minister has ordered a trial of Messrs Lahore and Samson's luminous paint on the boats, of the Capitania and also on the buoys in port. A Committee will be named to report on the result, which cannot but be favourable, as this paint has proved a decided success in Europe.

We have received from Richmond, Virginia, U. States the Centennial number of *The Southern Planter and Farmer*, a publication full of most interesting matter. If we could only imitate, even at a long distance, the way they deal in the U. States with Immigration, Land, Cattle-raising, etc! The railway companies are the most pushing immigration agents there.

There was not an inconvenient crowd at the distribution of prizes on Thursday night to the successful competitors at the Italian Exhibition last year. There was a stiff breeze blowing through the fragrant groves of the Florida Gardens, and many of the spectators and speakers had to hold on their hats and wigs with both hands. General Sarmiento and our eloquent colleague Dr. Cittadini made the crack speeches of the night.

We were very glad to learn yesterday that Mr. Crabtree, Manager of the Northern and Ensenada Railways, who has been unwell for the past week, was much better. During his illness Mr. Crabtree has confided the management of the Northern line to Mr Campbell, and the Ensenada to Mr Munro, gentlemen who are both well and favourably known to the public and who discharge the extra duty imposed on them most efficiently.

Those who want to escape the fooleries and annoyance of Carnival could not do better than run out to the Tigre and pass the three days amidst the delights of the famed Calypso Island. Mr. Calzetta has made extensive preparations, and several of his nicely arranged rooms have already been engaged. The Tigre is very gay this summer, many of the principal families of the city having located themselves there during the hot weather.

The Lamport and Holt steamer Euclid entered Montevideo yesterday and her mails will be up this morning.

It now turns out that there was plenty of water in the mains at the fire in Calle Garantias, but the hose of the Bomberos is in such a wretched condition that the pressure of water could not be fully availed of. There is always a 'tornillo flojo' somewhere, top or bottom.

The Cordoba Legislature has gone through the laughable farce of granting Governor Celman permission to visit the Buenos Ayres Exhibition. What an intense humbug. H.E. starts this morning:

The Carnival horseplay begins this evening. Let no man who values a good hat put it on till Wednesday morning, or be particular as to the quantity of starch in his collar or the front of his shirt for the next three days. There is a new moon to-night, and Jupiter Pluvius may perhaps join in the water-throwing. We hope he may, as there is a bad drought in the Southern camps.

All the members of the Health Board of Santa Lucia intend to resign in consequence of the removal of their esteemed President Mr George Washington Atkins, whose dismissal they consider unjust.

A love-struck policeman in the 15th Section ran away with a lovely maiden of 'sweet sixteen' on Wednesday night. He left word that he would be back in time to witness the Transit of Venus in December next. His colleagues are in chase of him.

Badgering railway companies and managers is a favourite pastime with too many of our native colleagues; it is quite touching to see how they enjoy the sport. The smash on the Southern Railway was quite a godsend to all the 'diaritos' in the Southern camp towns, which are still in full cry after the subject and will probably keep it up till Ash Wednesday. Go it, little 'uns! It amuses you and hurts nobody.

The shopkeepers all danced with delight yesterday when the Lord Mayor gave permission for their shops to be kept open to-morrow, it being Carnival Sunday. Factories, however, will not be allowed to work.

Several of the former pupils of Dr Wilde, Minister of Worship, Education and Justice, are about to give him a grand dinner, on his accession to the Cabinet.

The 'espedientes' are moving from Provincial to National jurisdiction faster than expected ——300 a day in some courts.

We'll be telephoned out of our boots here in Buenos Aires before long. It was announced yesterday that there is another Company in the field.

Some languid preparations for Carnival were at last to be seen in Calles Victoria and Florida yesterday; but there is none of the 'entusiasmo, of former years.

We had yesterday the pleasure of a visit from a German gentleman, making inquiries about the different ports on the coast of Patagonia, and how to get there. It seems that a party of astronomers are coming out from Hamburg to make astronomical observations, and observe the transit of Venus. There are two Viedmas in Patagonia: Lake Viedma which is the source of the Santa Cruz river, and the village of Viedma opposite Carmen de Patagonia. Port Desire (or Deseado) is we believe as yet uninhabited.

If any of our subscribers know the address of Patrick B. Keane, they would do a service by communicating same to the General Post Office.

National Bonds 1883	87

Operations on the Bolsa to-day reflected a more active market, and much business effected in anticipation of the Carnival feast-days. The main features of the gold market are stationary since some days, and there seems to be a plethora of specie in the Bolsa. The demand for gold does not at all meet the supply, and transactions are effected at 25.02 to 25.05; of late no sales have been effected at long dates, which goes to show more confidence in the market as to the future.

Cedulas ruled remarkably dull this morning, the sales only amounting to $9,000. Yesterday's activity in the stock was occasioned by some parties selling out to lend money on the National Bank Shares. Series A remained firm at 99⅞; Series E is weak, rates at 83, although there is a provalent opinion that the Series has touched bottom.

A small sale of National Bonds took place to-day at 87 o/o; last operations were effected at the same rate.

There was much excitement in National Bank Shares this morning. Reports were current that a heavy holder had let go, but the stock stood its ground. The Italian King sold also. Rates for the end of March are rising steadily, and large sales were effected at 124½, 125 and 125⅞. The market was unusually brisk and over 7,000 shares changed hands. Outside the ring some sales for end of March were reported. The bulls are confident of getting enough money to carry the shares at the end of the month.

The sales at the ring were as follows:—

Gold—
For Feb. 28th 60,000 at 25.05

Cedulas—
For cash E 2,000 at 83
For Feb. 18th A 7,000 99⅞
Sales, 9,000.

Nat. Bank Shares—
For cash 112 shares 128½-128
For Feb. 18th 300 shares 128½-½
For Feb. 28th 4,400 shares 128½-½-½-129 to 128⅝

For March 31st 2,750 shares 124½-125-½-½
Sales, 7,152.

Nat. Bonds, 1863—
For cash 1,000 at 87

14 square leagues of land in Trenquelanquen have been sold at the rate of 35,000 m/c per league. The land is situated alongside the large properties of Messrs Lezama and Urgarte; the lots sold were numbers 185, 186, 187, and 2 leagues of lot 141.

The magnificent stove at Balter's auction yesterday was sold for a trifle of 1,300 m/c.

There are more preparations for Carnival on the Bolsa than in the streets; all the brokers are taking in sail; the Italian bear of the fortnight began yesterday to buy, which startled the ring; this with a trifle of fresh money picked up in the market on shares at par, and the capital report of the Committee on the accounts of the Bank, has strengthened the stock somewhat, and to-day, since there were buyers for March at an advance of 1, the cash and month's prices at once improved. The month is now so far advanced and so many holidays interfering, and this being the shortest in the Calendar, all conspire to show that the market will be about the same at the end of the month as to-day. People who hold the shares will call up their coupon and take their chance of higher prices, since there is nothing else left in the market to speculate in, and the impression is general that the stock will sell at the same price after as before the dividend; the bears appear to have exhausted themselves, and even if all the shares sold are delivered on the 28th, there is money they say ready for them; all the Italians are evidently selling out for end of month and buying in for March.

The letter we published to-day on the great topic 'New Camps' was the talk of all the Bolsa and met with the fullest approval. The question is one of the most burning interest to the market, owing to the universal purchase of new camps by people both in town and camp. We adhere to our theory that so long as there is surplus sheep and cattle crying out for new land the outside camps must steadily advance.

Letters from London speak very much of the favorable influence Mr Parish's arrival has had in River Plate circles. A friend writes us that Mr Parish is feasted and feted, and his opinion on the country looked for by some of the strongest men in London. The quotation given by telegram of Treasury Bills in London is ex coupon; the coupon being cut off on the 14th inst.

Gas Shares and Municipal Bonds are again in the ascendant; 100 offered to-day for half a million Bonds and refused. It seems they have got an inkling on the Bolsa of what is under weigh. After Carnival the affair will take shape and all the 'Deuda flotante' of the Municipality will be paid off.

Messrs A. Scharffenorh & Sattler have chartered the following vessels:—

Austrian barque Cavaleri Krapp to load in Zarate bales for Antwerp at 20s in full.

Ital. brig Alba to load in Paysandu salted hides for Channel at 32s 6d and 5 o/o.

Ital. barque Fratelli Gazzolo to load in port bales for Antwerp at 16s in full.

Ital. barque Tigo to load in Barracas bales for Channel at 17s 6d and 5 o/o.

Deuda Amortizable in Montevideo has so much fallen that it is believed the Buenos Airean speculators have sold out; such however, we hear is not the case and some of the large Bolsa buyers still hold the stock. It shows, however, how different the Montevidean market is from this that with our biggest men and heaviest speculators they could not put the stock over 20.

Some Central Argentine R.R. Shares are offering in the market; in London an interim dividend of 2½ o/o has been declared on the Stock.

The report of the Eastern Uruguay R.R. has come up; the affairs of the Company show improvement.

Mr C. Schwind of the firm of Ashworth & Co. left to-day for Montevideo en route for Rio de Janeiro.

Letters from the far South speak splendidly for the camps down there; all the new stock sent down there last year has done well, and the estancieros and sheepfarmers who trusted to those new camps are all coming out right.

In another column will be found notice from Messrs Ashworth & Co., of Mr Auchterlonie's nomination to the post of manager of their firm. It would be difficult to find a more experienced or better man for the post. Mr Trotman, who for the last ten years has managed the firm retires, and we are happy to say will probably take a still higher post in this market, where he is so much and so deservedly esteemed and respected.

About one hundred people attended Baltar's auction of 'lina' lands in the district of Las Flores, but few bidders were present. The chacareros of the province missed a good opportunity of buying cheap lands for flax fields. Only four lots of the 14 offered were sold: Lot 14: 936 squares of land at $360 m/c per square: total 336,000 m/c; buyer R Otarola.

Lot 9: 166 squares at $190 m/c per square: total $31,300 m/c; buyer R Otarola.

Lot 4: 400 squares at $260 m/c per square: total $104,000: buyer Mr D Methven.

Lot 5: 200 squares at $515 per square: total $103,000; buyer A Negri.

Messrs Baltar offered for sale to-day 6 sq. leagues of National lands somewhere about Tranquelanquen; no buyers.

11,000 arr. of wool arrived in the Once this morning; all sold. Good wools are in demand at rising prices, the rise for good qualities averages 5 to 6 m/o per arrobe since last week.

The Ptolemy left to-day for Antwerp direct, with the following cargo—

1,109 bags of linseed
1,338 bales of wool
6,600 salted hides

The Galileo left for Antwerp with the following cargo:—

1200 bales of wool
7000 salted hides
7500 bags of linseed
350 pipes of tallow.

The Euclid arrived yesterday in Montevideo with dates to the 21st ult.; she loads for New York.

The Maskelyne is due in Montevideo on the 20th; she has already engaged for Antwerp and Liverpool:—

13,000 salted hides
1,100 bales of wool
3,500 bags of linseed
320 pipes of tallow.

The Handel leaves Rosario to-morrow for San Nicolas; she will arrive here on Tuesday and leaves on 23rd for Antwerp and Liverpool direct, with full cargo.

The Laplace is loading for Antwerp and London. she sails on the 21st with a full cargo.

The Provincial Bank discounted to-day 4,000,000 m/c. No gold discounted.

The Campos de Vera in B. Oriental, were sold by auction yesterday for $92,500 buyer Mr D. Urquiza.

At afterhours several sales of gold were effected at 25 01 and 25.07 Some Cedulas A were sold at par. In National Bank shares price went steadily to 129⅛ for end of the month and 125½ for end of March. The market closed buyers at these prices.

The Sales at afterhours were—

Gold—
For cash 15,000 at 25.01
Sellers for Feb. 28th at 25.05

Flax is giving rise to many complications, as those who made contracts at 'descubierto' are unwilling to fulfil their orders by sending flax in bad condition and of bad quality. For want of machines, mares are used for treading purposes; the flax very naturally suffers from this primitive threshing. Farmers cannot well afford to buy wheat threshing machines that cost close on £1,000 stg., and they request of the importers of machinery to introduce from England or the U. States cheap and light threshing machines for the lino. As matters are, half the crop has been lost, and contracts are very difficult to meet in the present circumstances.

Approximate returns of the wool crop of the U. States in 1880 have been issued by the Census Office. The regular returns of the wool clip for the year amount to 36,196,866 fleeces of an average weight of 4.42 lbs., the clip thus amounting to 155,530,493 lbs. According to Bradstreet's, however, there has to be added to this total from 10,000,000 to 12,000,000 lbs., being the estimated increase for two annual clips where enumerators secured reports of only one. A further addition of 25,000,000 lbs. is made for fleeces of ranche sheep, and 30 million lbs. is estimated to be obtained as pulled wool. The total wool product is thus brought up to from 222 to 228 million lbs. The production of 1881 is estimated to have been in excess of this total, but still far short of the requirements of American manufacturers, to supply which 128 millions lbs. of wool were imported in 1880.

We extract from President Vidal's message to the Chambers of Uruguay the following figures of the trade of that Republic:—

	1880	1881
Imports	$18,328,225	$17,106,104
Exports	18,999,150	19,739,892
Total	$37,327,375	$36,845,996

The trade figures of last year shew a falling off, but it only amounts to $500,000. The immigration into the Uruguay during 1881 amounted to 700 persons; the figures are as follows:—

Immigration	21,909
Emigration	21,216
Balance	693

The message of the President in fact points to a very stationary year in the Banda Oriental, when compared with 1880. The Uruguay progresses very slowly; it wants more men, more railways, and more capital. People in general do not anticipate much from the approaching Government of General Santos, but we really do not see why he should not make as good a President as any of his predecessors; in fact he cannot make a worse one, as regards political confidence. The Banda Oriental has many natural advantages, but retrograde elements have handled the reins of power for many years.

It is reported that a large firm in this city has bought 70,000 entrance tickets to the Continental Exhibition. At this rate the Club Industrial will want for no funds at present.

Messrs Eguerra & Co. have presented a petition to the National Government, requesting to be exempted from tax payments on a sawmill in Formosa, Chaco.

The National Inspector of Colonies will soon leave on a visit to the several settlements in the Chaco. These colonies will not be represented at the Continental Exhibition. Affairs up there must be very bad when the colonists are unable to send a few exhibits.

500 dry hides of Messrs Roca Hnos. have been sold at 52 rls. gold; weight 21½ lbs.

The Municipality has been offered paving stones from the Province of Entre Rios; the stones are as good as those of the Banda Oriental.

Inspector Orami has sent in a most favorable report on the condition of the saladeros of Messrs Repetto, and Costa & Becker.

We call attention to the large auction of the well known stud Las Barrancas; the auction takes place on the 27th, so that intending purchasers can in anticipation pay the animals a visit at Lezama, S.R.

We extract the following from the London financial papers to hand:—

"To the Editor of the *Money Market Review*.

"Sir,

"Looking at the great progress that has taken place in the material prosperity of most of the South American Republics during the last two or three years (more especially in the Argentine, where Railway property has increased in value from 70 to 80 o/o.) I am at a loss to understand why similar undertakings in the adjoining Republic of Uruguay should remain so unproductive. It is true that the Central Uruguay Railway of Montevideo is now doing well, and that the Shares have risen from 5½ in 1879 to about 9; but the securities of the North-Western of Montevideo Railway have actually gone back, and you can now buy their 7 o/o £100 First Mortgage Bonds with 6½ years' arrears of interest for about £34.

"This looks perfectly absurd, when you consider that these arrears alone represent a sum of £15 per Bond, and that payment is said to be guaranteed by the Government of Uruguay [see] Skinner's Stock Exchange Year Book]. Six months ago these Bonds were selling at £10.

"What can have sent them down to the present quotation I cannot tell, and certainly I shall not part with mine at any such absurd price, for, if our Directors are worth their salt, and if the Government guarantee is worth a rush, these Bonds ought to be worth more than double the money they are now estimated at by the gentlemen of the Stock Exchange. It is not as if we had to do with an insolvent Government, but everyone who is interested in Uruguayan Securities knows that the interest on the Debt is paid most punctually, and that to those who are not timid there is no more profitable investment to be made at present than Uruguay Bonds,

"I am, Sir,

"Your obedient servant,

"A HOLDER OF £6,000 7 o/o BONDS."

"To the Editor of the *Money Market Review*.

"Sir,

"It will be of interest to holders of Argentine Securities to know that the projected Conversion—which, by the way, never had the smallest chance of success—has now been virtually abandoned.

"At some future time, some project of Conversion may perhaps be brought forward, but then Argentine Securities will have risen to a much higher level, and whenever it takes place investors may be sure that the creditors of this most prosperous country will be treated not only with justice, but with generosity,

"Yours truly,

"PORTEÑO."

"To the Editor of the *Money Market Review*.

"Sir,

"The following appeared in the money column of this morning's *Standard*:—"Argentine issues were all lower, and it is feared in some quarters that the credit of the Confederation is being to some extent affected by the 5 per cent. conversion scheme now before Congress concurrently with the proposed issue of a new loan of 100,000,000 dols"

"This statement has been wrongly interpreted by holders of Argentine Stock. The Argentine Government has no intention of borrowing more money; the new Loan referred to would merely be issued for the purpose of conversion of all outstanding Loans, but there would be great difficulty in carrying the scheme out, and many Bondholders would refuse the terms of conversion. Telegrams arrived last week to state that the scheme had not been accepted by Congress.

"Your obedient servant,

"AN ARGENTINE BONDHOLDER."

Splendid Thorough Bred RaceHorse
Sires, Durham Bulls and Cows
Rams and Ewes.
In one word Liquidation of the celebrated establishment of
Patrick Reid, Esq.
In charge of JAMES CHURCH Esq. Stud of
Las Barrancas
On Monday February 27th
at 12 o'clock

☞We shall sell the stock of above breeding establishment so justly famous for the many victories achieved on the turf by the exc llent animals bred there.

Estancieros are well aware of the patience and untiring zeal displayed by Mr Reid informing this stud farm, as he selected and imported into this country, animals of great merit which have been under the immediate charge of Mr Church. Seldom is there an opportunity of this kind offered,and this is due only to Mr Reid's determination to retire from business.

Zeucne, San Jeane, Venus, Toscas, Pichon, etc, have given on our race courses ample proof of their blood by carrying of the highest prizes. With such facts before us, it would be quite superfluous to praise the breed of Las Barrancas'.

N.B. There will be a special train and carriages at the station to take out and bring back all parties interested.

On Friday, February 27th
At 4 p.m.

At our mart, San Martin 51, we shall sell to highest bidder over and above the conditional basis, [200,000 m|c per league] a splendid piece of camp situated in the partido of Tres Arroyos, land selected by a competent judge.

The quality of this land is unsurpassed according to statements of neighbours who have seen it, and we advise parties interested to inspect the ground and convince themselves of this fact.

There are still 6 bills due to the Government of 16,875 m|c each, payable on August 21st each year from 1882 to 1887 which make the business easy.

The neighbours are Messrs Ramon Udaete, Cayetano Farias, Bernardo Chapar and Juan Elizalde.

Mortgage in favor of Mortgage Bank

On Wednesday, March 8th, at 3 p.m., at our mart, San Martin 51, we shall auction the above splendid camp by order and for account of its proprietors, who are about to liquidate their partnership. It comprises 2½ leagues of land, with permanent water in a lake on the borders of the land, half of which belongs to Sr. Madero.

The richness of the pastures need no comments. Persons in reach of something superior should pay it, avisit. On the adjoining estate of Sir Eduardo Madero; there are 15,000 horned cattle and sheep, &c, and the same can be said by Messrs. Perez, Rondeau, Gazcon, Martin, Moore, Shult.

We remind interested parties of the last sale of Public Lands, lying 18 to 20 leagues farther out, which fetched $270,000 m|c per league. This land appears in the plan under the names of Castilla and Massot, and adjoining Messrs Anacleto Perez, Gregorio Loubet, Eduardo Madero, Francisco Rodeaun, and Señora Barbarita Alvarez.

Terms of Payment

DON'T FORGET—The buyer may also take out the debt owing to the Mortgage Bank $fts. 8,000, of serie E. This would make the business easy, as the Bank could be paid off very gradually.

Una area de campo compuesta de dos leguas cuadradas de abundantes pastos, y cuyos linderos son los señores Emilio J Perez, Juan P Cauret, Puerto de la canal y J A Loustesu.

Uno de los mejores elogios que podemos hacer de estos campos es que el Gobierno de la Provincia vendio el 7 de Febrero en este mismo partido a razon de 600,000 m|c legua, y en el de Juarez por mas de un million de pesos legua hace apenas un mes.

El dueño de este campo al ponerlo la base de 170,000 m|c legua, ha tenido en vista atraer el mayor numero de los pequeños capitalistas para que ellos puedan comprar areas menores, relativamente a las que hoy se estan vendiendo y que ellos determinan en el acto del remate cual es el valor de esta fraccion.

De tantos campos que se han ofrecido y se ofrecen todos los dias en venta, pocos pueden ponerse en parangon con este lote y especialmente con los que acaban de venderse en la Seccion 10 a razon de 101 ps. la hectarea, o sean 971,000 ps legua cuadrada.

El campo que ofrecemos en venta esta mensurado y amojonado por el Sr D Angel Silva, y sus pastos son abundantes y riquisimos, componiendose en gran parte de gramilla, trebol, alfilerillo, cebadilla, cola de zorra, etc. garantiendo que no hay medanos en toda la fraccion.

Esta a igual distancia de Buenos Aires que los campos del Venado Tuerto que se venden hoy de 3oo a 400,000 ps. legua.

Pocas veces se venden campos en iguales condiciones, y se vende unicamente por ausentarse uno de los socios para Europa, maxime que hay quien lo arriendo hoy en 12,000 pesos (doce mil) la legua.

Para descontar lo infimo de la base que se ha fijado para la venta, queremos recordar algunas ventas, efectuadas en estos ultimos tiempos, algunas de ellas en estos dias.

Al señor Cadmus en la Seccion XVII por 130,000 ps legua, comprada para una compañia belga que esta ya mandando los materiales para alambrar el campo.

Las 19 leguas vendidas por el Dr. D. Marcelino Ugarte al nuevo Banco Ingles a razon de 160,000 ps al contado la legua, y se pobladran a no dudarlo en poco tiempo.

Esta fraccion que anchada queda a muy poca distancia de nuestro lote.

Los campos que acaban de venderse en la seccion 10 y cuyo termino medio da mas de 245,000 ps por legua, campos infinitamente inferiores, y para que no se crea que es charla nuestra los vendedores dan al comprador, por medio de un documento, un plazo de seis meses para que puedan cerciorarse de la verdad de lo que decimos y de que si no son mejores estas tres leguas que cualquier fraccion igual de las 85 leguas de esa seccion 10, se anulara la venta y se devolvera el dinero pagado.

Muchisimos son los pobladores que hay por aquellos parages, cerca de alli la fraccion marcada en el Plano con Pirondo y Escalante esta poblada por dos vascos, a quienes se lo vendieron aquellos.

Sabido es que Lincoln es el partido que se ha poblado mas rapidamente, y lo prueban los grandes establecimientos de los señores Duggan, Ostendorp, Samsen, Ricketts, Sanford, Brown, Carabassa, Lopez, Martinez de Hoz y muchos otros vecinos pobladores, no especuladores, y que no venderian sus campos por ningun precio.

La seccion 17 que hace tan poco que fue vendida por el Goiberno de la Provincia, esta llena de nuevas estancias como la de los Sres. Romero, Allan, Wilson, Cabral y otros.

En cuanto a pronta comunicacion con los grandes centros, tenemos varias lineas de ferro-carriles que no son proyectos, sino que estan ya, puede decirse, en via de construccion, y antes de dos años tendremos el ferro-carril Trasandino, que pasara cerca de este campo, y el otro que ira a Tranquelauquen.

Pocos son los campos que le quedan para vender al Gobierno de la Provincia, y pueden estar seguros los compradores que todos ellos se venderan en las mismas condiciones de la seccion 10 y del campo vendido el 7 del corriente en el partido Nueve de Julio, cuya base era de $70,000 legua y fue vendido en 940000 pesos legua al Sr Unzue.

Queremos hacer presente tambien que la gran area vendida por el Sr Don Jose G Lezama al Sr Don Eduardo Casey, queda diez leguas mas afuera que este ofrecido en venta.

Con todos estos datos y las garantias de los vendedores respecto a la bondad del campo, este vale a no dudarlo $120 la hectarea!!! y con los 8 años de plazo sin interes vale 350 a 400,000 pesos la legua.

Los compradores firmaran pagares hipotecarios por los ocho plazos, entregando la octava parte al contado.

Prevenimos a los interesados que desde hoy tendremos a su disposicion un plano indicando la posicion exacta del campo, para que quedan mandar revisarlo con tiempo.

¡¡¡ Verlo y comprarlo !!!

NOW WORKING AT CHIVILCOY.

The attention of Chacareros and others is called to the following important recommendation from Don Lorenzo Martino of Chivilcoy:—

"At the request of Don Gregorio Villafañe and with the greatest personal satisfaction and pleasure I hereby declare that the working of Messrs Clayton and Shuttleworth's Engine and Thrasher was all that could be desired, and it would be my greatest satisfaction to have all the Chacareros of this Partido and of Chacabuco and Bragado to be present at the working of these machines, in order that they might have an opportunity of corroborating this Certificate I so willingly give. I consider these machines to be of the most perfect economy and a great encouragement to Chacra work."

The Villarino's Mails.

LATEST FROM RIO NEGRO.

Viedma, Feb. 2d.

Having seen in your valued and popular paper several articles about this almost unknown part of the Argentine Republic, it may not be amiss to mention to you what a fine country this would be for well managed colonies, if only the Nat. Government would consent to put new men at the head of affairs; the present men are quite incapable for the posts they hold.

The only existing colony on the south bank of the Rio Negro (Patagonia) is that of Conesa, which is now almost entirely ruined for want of a proper person to direct it; today there are only 3 foreign colonists left and 2 of them will be taking their departure as soon as they have finished getting in their crops; they went there having been promised chacras and sites in the colony for the purpose of building their houses; but none of the three have been able to obtain their chacras, and only one of the three has been able to get a site to build a house or 'rancho' upon; and he has no guarantee or document of any sort; very naturally you will say how is this; well I believe the reason is that the Intendente of the colony seems to have no power to grant them what the Government and himself promised to give them, or more probable it may be, that the Intendente does not want to be troubled by the 'Gringos.'

I know of other two Danes (colonists) who went there along with the two of the three who now remain, and after remaining some 10 or 15 days to see if the Intendente would concede them a 'chacra' to work upon (the season being far advanced for sowing) were obliged to return to this town on foot, a distance of 40 leagues over a rough and bad road, without a cent in their pockets; they left here to try and find a more hospitable spot; they went to Chubut where I believe they do well. Only one of the three colonists that remain receives rations, and that is because he is a friend of the Intendente and does not care to work; the other two had to sow on halves with other parties, so as to try and make a livelihood: as immediately the Governor went up to visit the colony (for the first time in three years) he stopped what little they were getting of rations, because they complained to him that they did not get enough to eat and asked for yerba, and that they had not got their 'chacras,' bullocks etc that were promised them by himself. So then through the influence of a friend one of them managed to procure a bit of mare's flesh every day from the 'Provedor' to keep him from starving, but the other poor fellow lives 'quien sabe' how (may be on Dr Tanner's diet during his 40 days fast). Another colonist, a German, was put into prison for several days because he received his ration of beef after the Governor had stopped it, but he declares that the Intendente promised that he should get his the same as the one that still receives (he who does not care to work) and might go and tell the 'Provedor' so) in his name; he did so, and in a few days after the Intendente, hearing he was getting his meat, declared he never had said such a thing, and there and then put him in prison where he remained several days and where he might still be but for the inteference of a friend, who went to reason with the Intendente; so he was then released, but had to clear out of the colony and look for work on the north side; (this is a man who was at one time a large estanciero in Bahia Blanca, but through misfortune lost his all). Many things could be written about the bad management of the colony Conesa if time and space would only admit; but let us hope that the time is not far off when we will see new men at the head of affairs in this unfortunate territory, when we may look for far different results.

The poor Indians would make good peons and many of them very faithful servants, if only humanely and properly treated, but that unfortunately they are not, being very nearly starved to death, and living in miserable mud or straw 'ranchos,' and have not even tools with which to work, or to till the ground, although the majority are willing and able to work for themselves, if they only had the elements for doing so.

Such is, my dear Sir, the 'triste' state of the colony which under judicious management might be made a flourishing and well to do colony and an honor to the country, instead of a disgrace to a civilized nation and a hotbed of iniquity, vice and scandal.

Castre or Catre, a point about 14 leagues above Conesa, is another place where a colony might be established, the camp being very fertile and especially good for grazing purposes; there is only one settler there at the present time, a Frenchman; the other settler a Frenchman, was cruelly murdered by the Indians in the last invasion.

The National Government at the commencement of the past year created a mixed school in the colony Conesa, and appointed a Director and Preceptora who immediately started down from Buenos Aires after having been promised a good brick house of 3 rooms and kitchen, the which never existed in the whole of the colony; at that time there being only 1 brick house and that only in course of construction, which was for the school, but of 2 rooms which was only sufficient for him and his family; after waiting a considerable time and continually asking the authorities to build another room if only of wood, so that he could commence operations; and although the Government had not sent down the desks, forms, books etc: as promised, yet he was willing to begin as best he could, but his appeals were of no avail, and he could not open the school in consequence of the want of room; but the worst of all was that at last, the Intendente's pocket being empty, he sold the house for $20,000 m/c from over the schoolmaster's head and gave him notice to at once deliver up the house to the purchasers, and he and his family could remove into a 'Tapaleanero rancho' of one room, the only place unoccupied and in a most ruinous condition, and live as best he could; remonstrance was of no avail, although the brick house had been built by the Indians of the colony, and that is were the Intendente lives. The schoolmaster and mistress naturally where discontented with this sort of treatment and resigned their post, which gave offence to the authorities and they declared they would not allow him or her to leave the colony, to come down the river to the Capital; but just at the last moment of the sailing of the steamer, they at last consented, but in a very ungracious manner; but now refuse to allow him to remove his furniture, clothes etc, he having specially sent to get them, saying that they have confiscated them all, and will not state the reason why or answer his letters, and the Alcalde of the colony defies the orders of the Juez de Paz and says he has absolutely nothing whatever to do with him, (the Juez) The Juez has demanded him to immediately deliver up everything, but the schoolmaster can get no satisfaction from the Government of Patagonia or the Justice of Peace.

Dear Editor, you cannot imagine what anxiety there is in this town to see you amongst us again, so that the townspeople can openly thank you for the interest you have shown for the welfare of this territory. I have been assured you will not be short of 'carne con cuero and mate' on this side of the river as we hear you are so fond of it. I casually heard only yesterday from a mutual friend of ours that you are going to be regaled with 17 'carne con cueros,' one for every article you have written about this country of the hospitable 'Tehuelches' on your trip up to your fine estancia 'Lambare,' so you will see the 'norteros' will not outdo us in hospitality.

The steamers Rio Negro and Neuquen started for up the river the day before yesterday. S.S. Triunfo aground some 30 leagues above Patagones; Villarino, Oscar, Esperanza and Carmen in port; the Rosetti has just come to an anchorage in front of the town; there are also in port the 2 Government cutters and the Rio Negro expected daily from Brazils: the port is pretty busy, but business very dull.

February 3rd—Latest news. Had about 6 hours good rain, the salvation of the camps, not having rained before for about 3 months, and still with a tendency to rain. To-day there is going to be a meeting of the Italian Society in consequence of the Alcalde of Conesa having stretched out with 4 posts an Italian 'comerciante' in the colony.

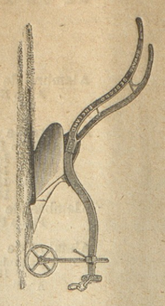
HOWARD'S CELEBRATED PLOUGHS

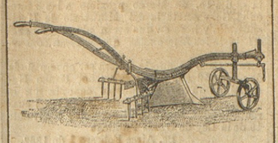
Howard's Small Ridging Plough



A small useful iron plough, fitted with a double mould board or earthing up body, and much used by grain and vegetable growers.

Weight ¾ cwt.

Howard's Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's Potato Ploughs.

With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1½ cwt.
D D, fitted as above, weight 1¾ cwt.
S B, fitted as above, weight 1¾ cwt.
B P, fitted as above, weight 2 cwt.

The above Machines kept in Stock by the Principal Hardware Merchants.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. "To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c., at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*

Carlow Lay College

AND

ST. MARY'S PREPARATORY SCHOOL

Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.
